

"Footy tipping" is the term for office pools where players nominate which teams will win that week. Well, we had our starting point for the new game.

Match 10 games are a chance for people to place what is essentially a large accumulator bet on the results of football matches. The pools require you to select 10 matches on your coupon and for you to be successful you need to pick 8 games that finish as a 2-2 draw or greater to win. If you are successful then you will have the opportunity to win a share of the prize pool on offer.
